PROFESSIONAL SUMMARY

Offensive security practitioner and co-founder of Security Crown. I find web application vulnerabilities and turn them into clear, actionable reports that developers can fix. I am also a BBA student at Pabna University of Science and Technology, so I explain security risk in business terms, not only technical ones.

KEY ACHIEVEMENTS

- Team Mutex19 ranked 35th of 6,744 teams at HTB Cyber Apocalypse CTF 2026 (136/136 challenges solved).
- HackTheBox Level 37.
- TryHackMe Top 1% (LEGEND tier).
- PortSwigger Web Security Academy: 76 Practitioner and 4 Expert labs.
- Accepted solution: Intigriti September 2026 CTF (SQL injection; full write-up on GitHub).
- Global Cyber Skills Benchmark 2026: Team Rank 148th of 589.

CORE SECURITY SKILLS

Testing: Web application penetration testing: OWASP Top 10, SQL injection (SQLi), cross-site scripting (XSS), IDOR, authentication bypass, and local file inclusion (LFI).

Infrastructure: Active Directory security and privilege escalation.

WordPress: WordPress security: malware removal, hardening, and incident cleanup.

Reporting: Reporting: CVSS scoring, business impact, proof of concept, and remediation guidance.

Tools: Burp Suite, Nmap, ffuf, SQLmap, Metasploit, BloodHound, Impacket, Kali Linux, Python, and Bash.

Top Skills: LLM Security; Artificial Intelligence (AI); AI Security.

PROFESSIONAL EXPERIENCE

Security Crown

Co-Founder | September 2026 – Present | Dhaka, Bangladesh

- Co-founded a cybersecurity startup offering web application penetration testing, vulnerability assessments, and WordPress security services.
- Perform manual and tool-assisted web application testing aligned with the OWASP Top 10.
- Produce structured reports with CVSS scoring, proof of concept, and remediation guidance.
- Build standardized testing methodology and reporting templates for client engagements.

Team Mutex19

CTF Player | January 2025 – Present | Bangladesh

- Team Mutex19 ranked 35th of 6,744 teams at HTB Cyber Apocalypse CTF 2026, solving all 136 challenges.
- Competed in web exploitation, privilege escalation, and Active Directory challenges.
- Wrote public technical write-ups, including an accepted solution for the Intigriti September 2026 CTF (SQL injection).

PROFESSIONAL EXPERIENCE (CONTINUED)

Fiverr

Freelance Security Consultant | February 2022 – Present

- Provide WordPress malware removal, security hardening, and vulnerability assessments for small business websites.
- Clean hacked sites, remove Google blacklist warnings, and implement long-term hardening.
- Delivered security services to 15 clients in the local market, including website security assessments, malware cleanup, and hardening.

Arena Web Security

Cybersecurity Intern | August 2026 – September 2026 | Dhaka, Bangladesh

- Completed a 60-hour corporate internship in cybersecurity and ethical hacking.
- Gained hands-on experience in web application security testing and reporting.
